Our Boys' Suits Combine Service and Individuality.

Good, pure, all-wool materials, and the very best workmanship insure service. The workmanship that goes into suits that we show requires more than a mere knowledge of designing and tailoring skill, but the supreme efforts of men who are trained and tested in their particular lines of endeavor is an important part of each garment, making them durable, serviceable, lasting—essentials which if missing result in suits that are not worth considering.

You have complete dress excellence and comfort when you demand the best clothing, and that is why we insist that you should see the suits of our selection before making your choice for your boy. Individuality in style and finish is secured by the fact that each suit is designed and built separately, and by exclusive boys' tailors;

Individuality in style and mish is secured by the fact that loss; the suit is designed and built separately, and by exclusive boys' tailors; not men's tailors who try to utilize the accumulated ideas of the grown-ups, but suits that embody stylish, snappy ideas desired by the boys. There's a choice here that means satisfaction.
